Dear Captain O'Leary,

The private banks comprising the “network of global corporate control” described by Stefania Vitali, James B. Please let me know if you have any questions.

Defense Attaché

Dear Captain O'Leary,

General Eisenhower had foreseen that the maturity date of the Global Debt Facility, whose authorized signatory I represent as legal counsel, would require an institutional presence. That is one of the mandates of the International Bank for Reconstruction and Development and International Monetary Fund for which the Bretton Woods institutions were duly established at the end of World War II. This is regularized in paragraph 6 of the Bilateral Minesfield Breakthrough Successor Agreement.

As discussed today with Acting Defense Attaché Col. Jon W. Walker, I have informed the Joint Committee under the Treaty of Mutual Cooperation and Security between Japan and the United States of America that the impending rift with Germany, as witnessed by the unfortunate incident last October in Frankfurt, when a military helicopter buzzed the US Consulate in Frankfurt, has been duly averted. Mr. Wolfgang Struck, the authorized signatory under the Global Debt Facility, has accomplished this by placing the Treaty of Versailles Gold Bullion Certificates, with an aggregate value exceeding the quadrillions of dollars, at the disposal of the Bretton Woods institutions for the purposes of bankruptcy proceedings in the various nations in which these banks are located.

The Board of Executive Directors and the Board of Governors of the Bretton Woods Institutions are also arranging for the transition from fractional reserve fiat currencies of their membership to gold coins, leaf and aurum, minted from the gold on deposit in the Global Debt Facility, which has been deposited and held in trust for the benefit of the citizens of the Bretton Woods institutions.

Sincerely,

Karen Hudes
