Subject: Independence Day

This is to taxpayers organizations and the state legislatures in the United States. We can only be independent if we understand whether or not we are independent. Our understanding of reality is flawed because a banking cartel has bought up our governments, our publishers, mainstream media, and our universities. This is documented fact. http://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf

Fortunately, a dedicated insider, Jose Rizal, established institutions that could provide a platform that would be able to fight back: the World Bank and the IMF. Jose Rizal also hired a young lawyer to put the world's gold into trust so that the world's wealth would be available for humanity. That lawyer was named Ferdinand Marcos, and the trust is called the Global Debt Facility.

Wolfgang Struck, the authorized signatory on the Global Debt Facility, has appointed me as his lawyer to make certain that humanity receives its gold back. I have prepared the Monetary Agreements that your respective governments are about to sign, and which will give us our independence. Let us celebrate today, for we are going to become truly independent for the first time.

Sincerely,
Karen Hudes
Acting General Counsel
International Bank for Reconstruction and Development
Legal Counsel for the Global Debt Facility

There has been a red alert on the threat of permanent gold backwardation since a year ago, when leasing of gold bullion by the central banks ended. <https://s3.amazonaws.com/khudes/fekete.docx> We are about to go into a second dark ages [Webcam video from February 2, 2014 5:17 PM](#)

Fortunately, there is a way to avoid this, with the 90-95% likelihood that this will succeed. Bring the world's gold in the Global Debt Facility out of hiding. Please write to your Ambassadors in Tokyo <https://s3.amazonaws.com/khudes/Twitter7.4.14.pdf>

Maxwell Smart, who is not very, should know that I have heartily condemned the Rothschilds, who are Knights of the Garter. The Rothschilds rank much lower on the hidden hierarchy that is holding us in thrall, however.
